Assembly

1. Line up front panel and back panel
2. Seam shoulders
3. From the shoulder seam, leave a 11" (11.5", 12", 12.5", 13") opening for the armhole and seam down, stop seaming 5" (or any preferred length) before reaching the bottom for a little bottom side slit.

Neckline

1. Place stitch markers on the corner of the neckline.

| Markers at the top corners of the neckline | Markers at the bottom corners of the neckline |

2. Attach yarn to the back panel neckline.

You are now going to work in rounds to make the neckline.

Tips for even dc along side edge: dc goes into the post of the row and in the small circle between rows.

R1: ch 2, dc in each st until 2 sts from the marker. Dc2tog before the marker and dc2tog after the marker. Dc in each st until 2 sts to the next marker. Dc2tog before the marker and dc2tog after the marker. Continue in this pattern to the end of the round. Slst to end the round.

Move the stitch makers to the first dc2tog in each corner.

R2-3: ch 2, dc in each st until 1 st from the marker. Dc2tog, dc2tog. Dc in each st until 1 st to the next marker Dc2tog, dc2tog. Continue in this pattern to the end of the round.

Chain a long cord. Your cord should be long enough to lace back and forth as seen in the design. Each cord will vary depending on your desired length. Keep testing and chaining as long as you desire. Lace the chain across the neckline opening.

Sleeves

Attach yarn to sleeve opening
R1: ch 2, dc evenly around the round
R2-3: ch 2, dc in each st around the round
Fasten off, repeat on opposite side
